2020

Where do/did you attend/graduate from college?

*Utah State University Jon M. Huntsman School of Business.
Graduating Class of December 2022.*

What is your current career?

Financial Advisor with Northwestern Mutual

How did taking IB classes and/or graduating with an IB certificate or diploma help you be prepared for your college experience?

Despite the difficulty of IB being absolutely unparalleled, I don't think there's a better program that could have prepared me for college. I went into my first semester of college thinking "this is it?" IB prepared me so well that a few of my college classes were actually underwhelming. That being said, throughout my college experience I have certainly had difficult classes and a difficult time managing my exploration for a career on top of it all. But, by receiving the IB Diploma, I set myself up for success in college and for the rest of my life. The Jon M. Huntsman School of Business has a motto of "Dare Mighty Things" and I don't think I could ever fully grasp it and own my education without having done the IB program. For that, I will always be grateful that I chose to do it.

Are you willing to be contacted by a current CHS IB student to offer college/career advice?

Absolutely!
